

CPD Enhanced Cleaning Procedures

Top Grade Disinfectant

will be used in all studios, common areas, and bathrooms before and after each class.

Our professional cleaning company will clean all areas and rooms thoroughly every night. This includes cleaning all studio and store floors.

Hand sanitizer stations will be set up throughout the studios, common areas, and bathrooms.

In the studio

All ballet barres will be cleaned and disinfected after each class, even if not used.

We will use very few props handled by the teachers only.

For example: Hoops used for patterns on the floor will only be handled by the teacher. The props will be cleaned after every class, even if not used.

Street shoes cannot be worn in the dance studios.

Restrooms

We encourage all students to use the restroom before they come to the studio. The restroom will be cleaned and disinfected after every use.

CPD Facility Organization

Each studio will be operated individually with its own outside entrance and restroom.

CPD is divided into 3 zones; each with its own outside entrance, studio and restroom.

For example, for a class in studio 2 students will enter through store front door 2, proceed into studio 2, and can only use the restroom behind studio 2.

Floor markers will indicate safe distances in and outside of the studio.

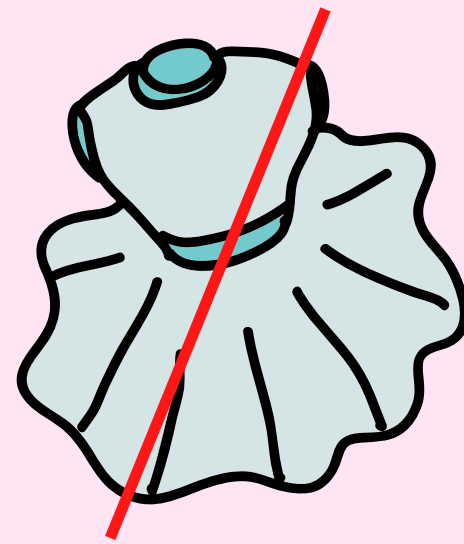

Lobby

The lobby and indoor waiting areas are closed. Outdoor seating is available.

Dressing Rooms

Dressing rooms are not available. Students must arrive and depart in their class attire.

CPD Staff Protocol

Teachers, staff and assistants will get temperature checks as they enter CPD. 100.4 or higher will be denied entry.

Teachers, staff and assistants will wear masks and practice all safety measures.

CPD Before Dance Drop Off

Students will be dropped off and enter through their assigned store/studio.

Please complete the mandatory health screening the morning of your scheduled class day.

Upon entering, the student must wear a mask and will be assigned to their designated socially distanced square (10 feet) apart.

All students will have their temperature checked. Those with a body temperature of 100.4 and above will not be able to enter the studio.

Students will use hand sanitizer from our station before entering the studio.

Before entering the studio, students will change into their dance shoes. Street shoes cannot be worn in the dance studio. If you are taking hip hop please come prepared with sneakers that have not been worn outdoors.

Dance Time

Students will be placed on a designated mark that allows dancers to be at a safe distance (10 feet) from one another both at the barre and in the center.

If a student needs to use the restroom a staff/teacher's assistant will safely escort the student to and from the restroom.

After Dance Pickup

When class is over students will line up and exit to be picked up in an organized and safe manner.
